

The Georgetown South (GTS) Project will provide infrastructure improvements to meet existing GO Transit ridership demand and future growth. It will also accommodate the new Air Rail Link service between Union Station and Pearson International Airport.

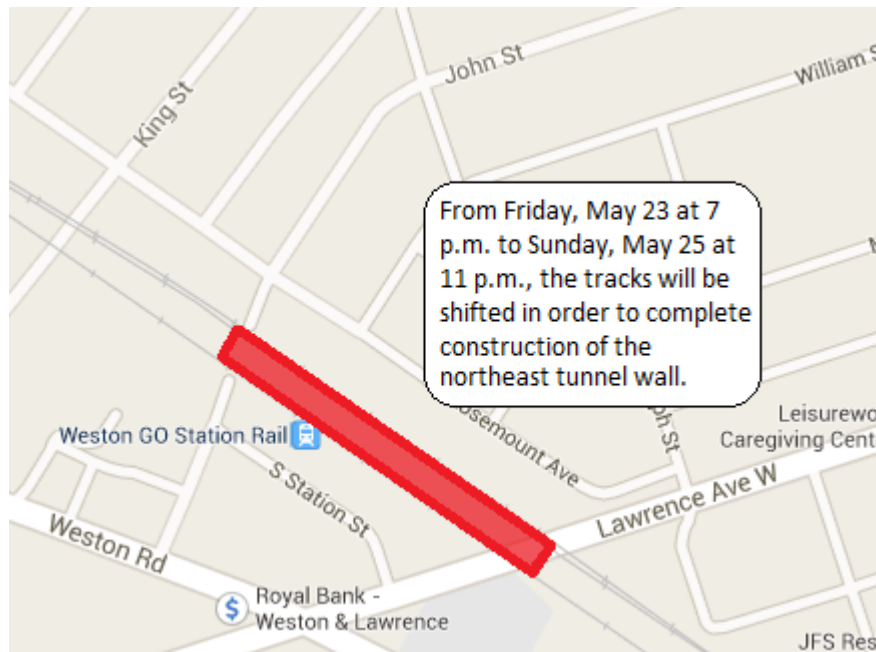

Continuous Weekend Work May 23 to May 25

What we are doing

- From Friday, **May 23rd at 7 p.m. to Sunday, May 25th at 11 p.m.**, we are shifting the tracks between Lawrence Ave. and John St. This track shift is necessary in order to complete the construction of the northeast wall of the Weston Tunnel.
- The new tracks will be installed and signals tested prior to service resuming on Monday morning.
- This work can only be done outside of regular train service.

How this will affect you

- Residents living nearby can expect some noise associated with construction vehicles and from the welding and re-positioning of rail tracks.
- Lights will be used during overnight hours; however, they will be focused away from nearby homes.

We sincerely apologize for any inconvenience this may cause.
